Alternative curriculum streams in public schools

Some parents have removed their children from a local state primary school in Melbourne claiming they were being taught a kind of spiritualist Christianity under the guise of alternative education.

The controversy was sparked by one of a growing number of public schools offering the mainstream curriculum, and an alternative model of schooling like Montessori or Steiner.

But should public schools be offering parents greater curriculum options for their children's education?

Guests

Geoff Riordan

Associate Professor, Education, University of Technology, Sydney
